**STATEMENT OF WORK  
FOR  
AIRBORNE MINE COUNTERMEASURES (AMCM)  
PERFORMANCE SUPPORT SYSTEM (PSS) LIFE CYCLE MANAGEMENT**

**30 September 2009**

### 1.0 SCOPE

The Airborne Mine Countermeasures (AMCM) Performance Support System (PSS) consists of Interactive Electronic Technical Manuals (IETM), Computer Based Training (CBT), and Just-in-Time Training (JIT) housed on desktop and laptop computers. The use of the AMCM PSS is critical for the AMCM community to fulfill its operational mission. This Statement of Work (SOW) defines the requirements for updating the Life Cycle Management of the AMCM PSS.

#### 1.1 Background

These instructional programs were developed and implemented to solve the longstanding training deficiencies of the AMCM community and include initial qualification, refresher, and just-in-time training. These training programs are based upon specific job tasks and have resulted

in development of a syllabus consisting of a series of academic curricula, laboratory, and aircraft training events. These training programs have consummated specific behavioral objectives, lesson organization, media selection, and training support requirements.

These sophisticated instructional programs require recurring revision and maintenance (R&M) support to maintain currency and quality of the courseware and technical manuals. The level of support requires familiarity with AMCM weapon systems maintenance procedures used in the organizational, intermediate, and depot level repair facilities and operational procedures used in the conduct of operational missions. Experience at ascertaining the impact of Engineering Change Proposals (ECPs) on existing AMCM training programs and technical manuals is also required. Additionally, recent and broad depth of experience in creating and life cycle managing of Performance Support Systems is required.

## NSWCPC – G12 INVOICE INSTRUCTIONS (WAWF)

(a) In accordance with the clause of this contract entitled "ELECTRONIC SUBMISSION OF PAYMENT REQUESTS" (DFARS 252.232-7003), the Naval Sea Systems Command (NAVSEA) will utilize the DoD Wide Area Workflow Receipt and Acceptance (WAWF) system to accept supplies/services delivered under this contract. This web-based system located at <https://wawf.eb.mil> provides the technology for government contractors and authorized Department of Defense (DoD) personnel to generate, capture and process receipt and payment-related documentation in a paperless environment. Invoices for supplies/services rendered under this contract shall be submitted electronically through WAWF. Submission of hard copy DD250/invoices may no longer be accepted for payment.

(b) It is recommended that the person in your company designated as the Central Contractor Registration (CCR) Electronic Business (EB) Point of Contact and anyone responsible for the submission of invoices, use the online training system for WAWF at <http://wawftraining.com>. The Vendor, Group Administrator (GAM), and sections marked with an asterisk in the training system should be reviewed. Vendor Quick Reference Guides also are available at <http://acquisition.navy.mil/navyaos/content/view/full/3521/>. The most useful guides are "Getting Started for Vendors" and "WAWF Vendor Guide".

(c) The designated CCR EB point of contact is responsible for activating the company's CAGE code on WAWF by calling 1-866-618-5988. Once the company is activated, the CCR EB point of contact will self-register under the company's CAGE code on WAWF and follow the instructions for a group administrator. After the company is set-up on WAWF, any additional persons responsible for submitting invoices must self-register under the company's CAGE code at <https://wawf.eb.mil>.

**CHANGES IN KEY PERSONNEL**

(a) The Contractor agrees that a partial basis for award of this contract is the list of key personnel proposed. Accordingly, the Contractor agrees to assign to this contract those key personnel whose resumes were submitted with the proposal necessary to fulfill the requirements of the contract. **TECHNICAL GUIDANCE**

The Task Order Manager (TOM) may provide guidance to the contractor regarding the requirements of the Statement of Work (SOW). Such guidance may be needed to prioritize work or initiate specific tasking within broad task areas. Under no circumstances may the TOM direct the contractor to perform work outside the scope of the SOW. The contractor is responsible for notifying the Contracting Officer if it believes it has received direction to perform work that is out of scope. Technical guidance will normally occur through day-to-day verbal communication

between the TOM and the contractor's program management personnel. However, written Technical Instructions may be issued at the TOM's discretion. **AWARD TERM CLAUSE**

In addition to the terms and conditions set forth elsewhere in this order, the contractor may earn an award term incentive consisting of an extension to the order period from the minimum one (1) year to a maximum of five (5) years on the basis of:

1. Satisfactory or better performance of the contractor as evaluated by the Government.
2. The Government has a continued need for the services (solely determined by the Government.)

|                                  |                            |                                  |                  |       |
|----------------------------------|----------------------------|----------------------------------|------------------|-------|
| CONTRACT NO.<br>N00178-04-D-4147 | DELIVERY ORDER NO.<br>HR07 | AMENDMENT/MODIFICATION NO.<br>26 | PAGE<br>25 of 28 | FINAL |
|----------------------------------|----------------------------|----------------------------------|------------------|-------|

3. The Government has funds for the services.

For each year of the order, contractor performance is evaluated using the Quality Assurance Surveillance Plan (QASP) and ratings are assigned based on how well the contractor has performed. If ratings are satisfactory or better for Year 1, the contractor earns Year 2; if ratings are satisfactory or better for Year 2, the contractor earns Year 3, and so on up to the maximum of five (5) years. But if ratings are less than satisfactory for any year, then the order is ended. The evaluation criteria and the award term procedures are described in the "Quality Assurance Surveillance Plan" and referenced in the "Award Term Plan".

---

**AWARD TERM PLAN**

The Government will assess the quality of the Contractors performance as follows:

- a. Evaluation Criteria and Ratings are contained in the attached Quality Assurance Surveillance Plan (QASP) in Attachment J.4. The contractor must receive a rating of satisfactory or better on each of the QASP evaluation criteria in order to earn the award-term incentive. A rating of less than satisfactory on any of the QASP criteria may result in the incentive not being earned.
- b. Evaluation Period. The evaluation periods will be (1) from award of the order through the end of the base period of performance and (2) for each award term year thereafter. One interim evaluation will also be conducted as described below.
- c. Personnel. The Government evaluation team will be as specified in the QASP.
- d. Interim Evaluation. An interim evaluation shall be conducted at the midpoint (i.e., six months) of the first evaluation period. No later than 15 calendar days after the midpoint of the evaluation period, the Assessing Official shall notify the Contracting Officer of the contractor's current strengths and weaknesses on the basis of inputs from the performance monitors and other pertinent sources. The Contracting Officer will then issue a letter to the contractor describing the strengths and weaknesses identified by the Assessing Official. The Contracting Officer may also issue letters at any time when it is deemed necessary to highlight areas of Government concern. Additional interim evaluations may be conducted at the discretion of the Government.
- e. End-of-Period Evaluations. No later than 60 calendar days prior to the end of the evaluation period, the Assessing Official shall initiate a report covering the entire evaluation period and submit that report to the contractor for review and comment. The contractor shall review the report and provide comments to the Assessing Official within 10 calendar days. If the contractor concurs, the Assessing Official will forward the report to the Reviewing Official who will finalize the ratings and close the report. If the contractor does NOT concur with ratings the Reviewing Official will then reconcile any disagreements between the Assessing Official and the contractor, finalize the ratings, and close the report. All reports must be closed no later than the 30 days prior to the end of the evaluation period. Once the report is closed, the ratings are not subject to dispute by either party.
- f. Award-Term Incentive Determination. As stated above, the contractor must receive a rating of satisfactory or better on each of the QASP evaluation criteria in order to earn the award-term incentive. The Contracting Officer will review the closed report to determine if the award term incentive has been earned. If the incentive has been earned, then the Contracting Office will issue a modification to grant the award term extending the period of performance of the order. The award term is subject to cancellation based on the following specific contingencies: elimination of the requirement; lack of funding; and unfavorable determination that price is fair and reasonable.
- g. Changes to the Award-Term Plan. This Award-Term Plan is a part of the order and can only be changed by a bilateral modification to the order. Either party may propose a change to the Award-Term Plan at any time. However, if either party desires a change to the plan and a mutual agreement cannot be reached, then this original Award-Term Plan will remain in full effect.
